PRODUCT PRICE GUIDE 2018

To Succeed in your mission,
you must have single-minded
devotion to your goal

"Dr. A.P.J. ABDUL KALAM"

Respect for the Environment

Our Brass metallization plants conform to the requirements for environmental management systems ISO 9001:2015, being the most up-to-date and rational development in this field of application. The measures taken make it possible not only to guarantee total respect for the environment, thanks to a sophisticated closed circuit water treatment plant, but also to satisfy a need for constant quality in the treatment. The energy requirements in all three plants, moreover, are supplied entirely by a co-generation plant.

Corsa[®]

Bath Fittings & Accessories

IS : 8931

CM/L No. 8100075207

Gracious living is marked by qualities of charm, good taste and generosity of spirit. It is further characterized by self-fulfillment and the enhancement of nature. We reflect this mission in our work, in our team approach to meeting objectives and in each of the products and services we provide our customers. That's why Corsa's Passion series is being mark as ISI approved products in INDIA.

ABOUT US

Established in 1996, Corsa is a highly reputed name engaged in manufacturing and supplying a complete range of Bath Fittings. Backed by a team of qualified professionals, we have been able to bring forward the best quality products. We have established a strong foothold in the national as well as international market by supplying the product to most demanding markets. Our products are processed using finest quality basic material, which ensures their high quality standards and efficiency. Our quality analysts test each lot of the finished products on well-defined parameters, thus ensuring compliance with international standards.

PRODUCTS

We serve as the manufacturer and supplier of Luxurious Bath Fittings. Our products are developed using accurate metal compositions and advanced manufacturing techniques, which ensure the quality, durability and credibility of our range. Further, we also offer our products in various customized speculation as per the requirements of our clients and industrial application fo the products.

QUALITY

Quality and perfection are the driving forces at our organization, that are actively taken care while manufacturing our offered products. For the production of these products, we have used best quality factor inputs that are obtained from reliable vendor base.

As an ISO 9001:2015 certified company, we always maintain quality in the following process like basic component procurement, processing, packaging and so on. In addition, our range also undergoes through a strict quality check procedure that ensure that its high quality standards. The quality procedure followed at our end also satisfies our international clients.

VISION

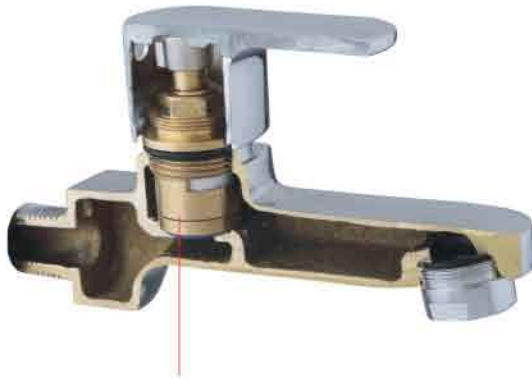

Our vision is to be a world-class manufacturing enterprise employing lean and agile methods that poise us for fast, sustainable growth. We want to be a leading provider of innovative kitchen and bathroom solutions. With brand Corsa, we have stayed true to our mission of constant improvement and innovation. It is also our vision to be a complete water solutions provider.

INFRASTRUCTURE

We have established well developed infrastructure equipped with latest technology and advanced machinery, quality testing and warehousing facilities. Our infrastructure is divided into various sections to maintain the flow of work. Therefore, it helps in implementing proper coordination enabling efficient business activities.

RESEARCH & DEVELOPMENT

We possess a well equipped research and developed unit managed by experts who conduct various experiments and researches on essential matters. Due to their untiring efforts, we are able to reach to the heart of our clients across the globe. Customer's complaints, market survey and feedback from periodic market research, etc. provide inputs to our experts with which they redesign and develop products according to latest trends and client's requirements.

CARTRIDGE

Cartridge faucets have a hollow metal cartridge insert that seals against the spout of faucet body. Drips usually mean the cartridge needs replacing. Cartridge faucets are referred to as "washerless" because they control flow using methods other than a washer and valve seat (though they do have O-rings and seals to prevent leaking). Corsa makes a washerless single-handle faucet with a hollow brass cartridge insert that seals against the inside of the faucet body with O-ring.

CHROME FINISH

Upper shiny protection layer provides a mirror finish to every faucet. High plating thickness (Nickel : 10 microns and chrome : 0.3 microns) provides tolerance to extreme climate and water condition. 400+ hours of salt spray test ensures our finishes are highly durable and corrosion resistant for a much longer duration.

CARTRIDGE

Cartridge faucets have a hollow metal cartridge insert that seals against the spout of faucet body. Depending on how a series of holes in the cartridge align with the stem, water is mixed and controlled. Drips usually mean the cartridge needs replacing. Cartridge faucets are referred to as "washerless" because they control flow using methods other than a washer and valve seat (though they do have O-rings and seals to prevent leaking). Corsa makes a washerless single-handle faucet with a hollow brass cartridge insert that seals against the inside of the faucet body with O-ring. Water flow is controlled by an up-and-down movement of the cartridge; to change water temperature, you just rotate the handle.

AERATOR

Corsa uses Neop pearl Aerators which Prevent splashing and Shapes the water stream coming out of the faucet spout, to produce a straight and evenly pressured stream. Water conservation and reduction in energy costs Reducing faucet noise To increase the perceived water pressure, (often used in homes with low water pressure)

WHEN DESIGN AND TECHNOLOGY MEET. THAT IS CORSA.

Made in Corsa means that we retain control over every single stage, from the casting of the raw materials through to the electroplating and the finished accessories. Here, highly accurate computer controlled production steps alternate with careful hand craftsmanship. Ultimately, the decision whether the finished accessories meets our quality standards is still made by a real person with a wealth of experience.

TECHNICAL SPECIFICATION

A start to finish in-house capability comprising of with all technical details

- **STATE OF ART GRINDING AND POLISHING MACHINES**

Semi Automatic Polishing Machines, Multi Station, Multi Spindle Rotary.

- **ELECTRO PLATING**

This step involve finishing of the products through electroplating (Standard Nickel 10-12 Microns, Chrome->0.3 Microns)

- **FOUNDRY**

Advanced induction furnaces, Advanced core shooters & Advanced gravity die-casting machines

- **CASTING**

Virgin brass ingots are melted in the induction furnace and Die Casted to be shaped in accordance with the technical designs.

- **MACHINING**

Hi-speed computer control SPMS CNC machine centers in-house tool room. All products are made of Extruded Brass Rods on automats CNC's and VMC

- **FINAL PRODUCTS ASSEMBLY**

Experts assemble various parts in non-polluting environment

- **FINAL PRODUCTS TESTING**

All products are tested under both Hydraulically and Pneumatically pressure as recommended by the bureau of Indian standards as per international norms.

- **STANDARD**

Low water pressure 0 to 2.5 kgs/Sqcm.

- **PACKAGING**

Attractive packaging with cotton pouches, foam, Thermocol and Bubble sheets are used to ensure zero surface damage in transit or during storage and that the best finished products adorn every bathroom they reach.

Corsa Thread Seal Tape

When covering a thread portion for the joint seal Corsa thread seal tape should be rolled only 4 times (varying from thread to thread) whereas other thread seal tapes are rolled 12 times because thread seal tape from Corsa is 3 times thicker than other thread seal tapes.

Why use Thread Seal Tapes

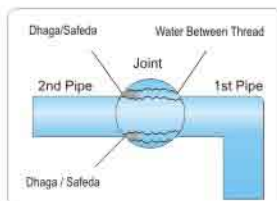

Thread seal tape cover all thread filling the gap between thread to thread minimizing chances of leakage (see diagram)

NO CHANCE OF LEAKAGE

Thread Seal Tape Vs Dhagha

Whereas Plumber uses thread (Know as Dhagha / Safeda) to seal joint pipe lines, thread only cover first new threads which has good chances to leaking

HIGH CHANCE OF LEAKAGE

Very Thick

Very Thin

THREAD SEAL TAPE

What is Thread Seal Tape ?

Thread Seal Tape (Teflon Tape) is a common, inexpensive and effective thin yellow tape used to seal pipe threads being joined together for plumbing purposes. It is used to seal water, from leaking through threaded connections.
